ABOUT COMPANY

ERC proposes to combine the above attributes to provide your business with the required logistics solution. It's focus will remain on all key areas, not simply those of the current.

The overall goal of ERC's logistics performance is that all its subsystems (processes, departments, teams, employees, etc.) work together in an optimum fashion to achieve your business' desired results.

Key initiatives for ERC will include:

- Continuous improvement of service standards through promotion of compliance.
- Continued focus on training and support of staff with continuing emphasis on 'reporting'.

ERC is focused on continuous improvement while increasing effectiveness and efficiency to fulfil its policies and objectives. It is not limited to quality initiatives. Improvement in business strategy, business results, and customer, employee, and supplier business relationships can be subject to continual improvement. Putting it simply "getting better all the time."

ERC's service is based on IT, security, speed and accountability. We have established our reputation on the consistent provision of track and trace, intact and on time delivery of consignments entrusted to our care.

OUR COMMITMENT

- ERC is committed to your business to create a long term service partnership that will deliver immediate IT and service benefits. It's continued commitment to mutual goals will help position your business with a significant competitive advantage.
- You can be confident in ERC as a service solution they can trust and that it will always deliver on promise, from the start. Based on ERC current and future relationships, it will meet your business' distribution, customer service and IT expectations .
- ERC hopes that you will take the opportunity to understand its service background through clients, employees and partners and be completely content in a strong partnership with a company embodying a compatible set of values. It advocates that the service partnership commences at the earliest opportunity with the continuation of existing intrastate express road transport and distribution requirements. Based on capabilities and shared information, this partnership would certainly present to you a real potential for significant short and long term service benefits.

OUR PROMISE TO YOU

ERC will play a pivotal role in the continuation and the stability of your business to maintain its aggressive growth by managing all major support centres for pan India customer. Our service performance will help position your business at the forefront of its competitors through ERC satellite tracking, on time delivery and service standard to ensure premium quality service.

- Innovative, forward thinking IT solutions, where satellite tracking is at the forefront of business for client benefit.
- To significantly reduce the effort and workload required by your business to manage their products once dispatched from distribution centres.
- To keep late, damaged and mislaid goods to a fraction of one percent, with nil being the ultimate goal.
- To build a working relationship that creates trust, goodwill and respect through a common desire to improve business.

- To consistently inspire a culture of technical excellence and innovation, by encouraging staff to make suggestions, decisions and to take action.
- A hands-on approach that not only delivers tangible benefits, but also offers on-going support for the solutions introduced.
- The design, implementation and maintenance of new ways of working that will support new situations, changes and challenges.
